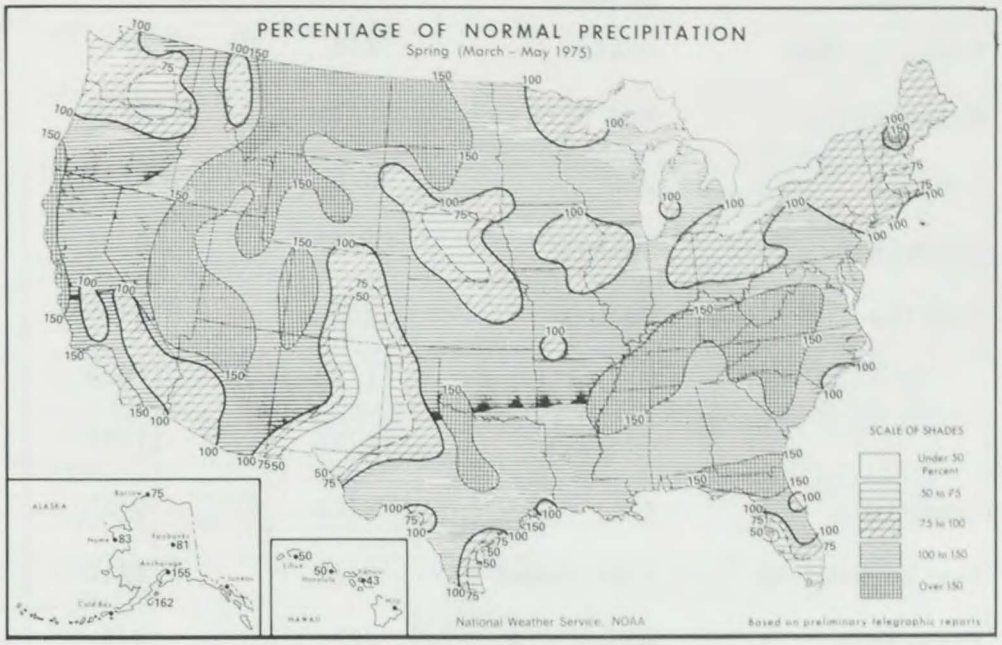
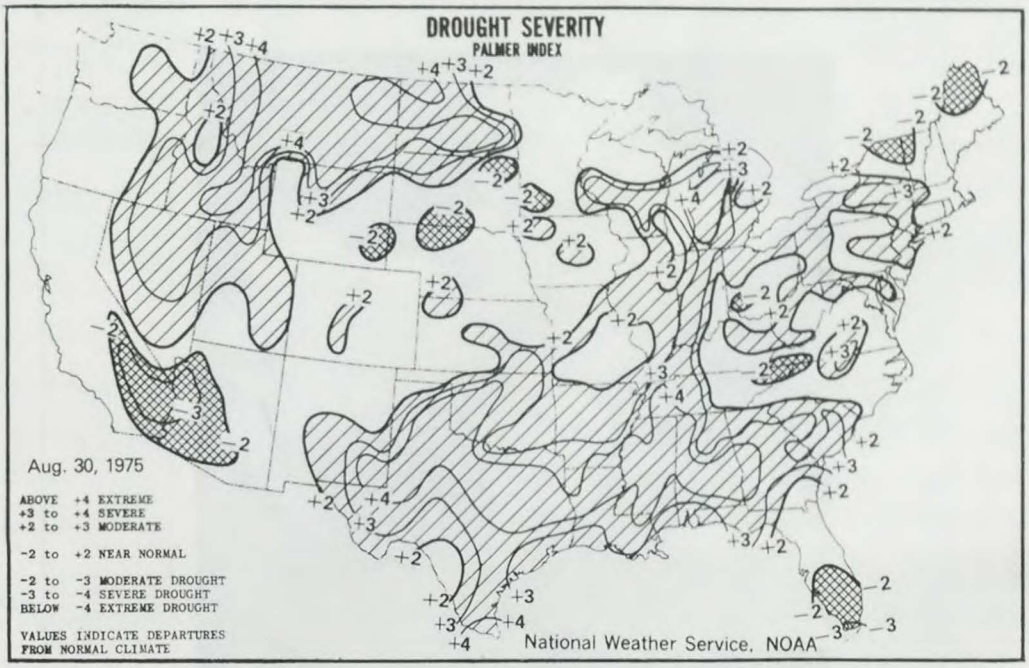
FIRE WEATHER

The 1975 fire season started with most areas receiving at least their normal amount of spring precipitation (see map below). The drought severity index map displays the drying patterns that developed through late summer and fall. A moisture deficiency continued to exist through the summer and fall seasons in northern Wisconsin and Minnesota.





LARGE FIRE OCCURRENCE

Of the 45 Class E and larger fires that burned in 1975, the 10 listed below accounted for 75 percent of the total acreage burned. The 6 Class G fires are all within or adjacent to the drought area in southern California and western Arizona (see page 1).

Region	Forest	Name of Fire	Discovery Date	Control Date	Acres Burned
2	Medicine Bow	Heald	8/6	8/8	4,566
	White River	Red Dirt	10/11	10/14	4,535

8	Kisatchie	Range #19	4/1	4/4	4,800

LAND OWNERSHIP PROTECTION

Since 1970, the acreage of State and private lands protected by the Forest Service has decreased by 8.8 million acres, while the acreage of other Federal lands protected has increased by 1.8 million acres. The amount of National Forest land protected by others has increased by 1.5 million acres resulting in a net decrease of 8.5 million acres protected by Forest Service forces. The decrease in acreage protected must be considered when comparing statistics in this report to statistics for prior years.

CHANGE IN LAND OWNERSHIP PROTECTION - 1970-1975

ATTAINMENT

In 1975, 95 percent of all fires were controlled at 10 acres or less in size on 200.7 million acres of Forest Service protected lands. Less than one percent were large fires which burned over 300 acres each. These accounted for approximately 84 percent of the burned acreage. Forest fires burned 0.9 acres for each 1,000 acres protected by the Forest Service.

AIR ATTACK

Forest Service smokejumpers made 1,643 jumps on 526 fires during 1975. They made initial attack on 428 of these fires and served as reinforcement on the other 98.

Helitack crews spent 17,718 man-days on fires. They made initial attack on 2,004 fires and gave support on 993 others.

Fixed-wing aircraft flew 52,811 hours, while helicopters flew 15,569 hours on fire control activities. A total of 13.9 million gallons of fire retardants were used in wildfire suppression in 1975.

Helicopter rappelling was successfully used in the Pacific Northwest as a means of meeting initial attack standards when other methods of air attack were restricted by wind, timber, and topography.

COOPERATION

Cooperation with State and other Federal agencies continued to receive emphasis in 1975 with the principle efforts directed toward training and total mobility.

A few of the cooperative efforts initiated in 1975 were:

--Region 1 detailed two fire bosses to train and work with the Montana Division of Forestry suppression crews.

--The Bureau of Land Management (BLM) located a 3-man pumper crew at the Fort Howes Ranger Station, Custer National Forest. The crew is a part of the District's fire organization, and it took action on both BLM and National Forest fires.

--The Humboldt National Forest and Nevada Division of Forestry combined their dispatching facilities and are looking for BLM to join in 1976.

--The Wasatch National Forest provided office space for the Utah Fire Weather Forecaster and his staff in their Fire Control Center. Daily weather briefings were held for State and Federal fire management personnel.

--The White River District, Mt. Baker-Snoqualmie National Forest, in cooperation with Weyerhauser Company, activated a manned prevention station on the Greenwater River. The Greenwater is an area of intermingled Weyerhauser and National Forest land and is a popular recreation area.

--The George Washington National Forest trained a 10-man initial attack crew for the Navy. The crew was available for use on fires on National Forest and Navy lands.

--Through a new cooperative agreement, the Army (Fort Leonardwood) began protecting 10,163 acres of National Forest lands in Missouri.

--The Toiyabe National Forest, Bridgeport Ranger District, initiated a 9-man helitack crew, three of whom were BLM personnel.

FOREST FIRES!

WARNING!

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE.
WASHINGTON, D. C., June 27, 1902.

Large areas of forest, public and private, are destroyed each year by fire. This destruction is an injury to everyone, and is a great damage especially in all mountain countries where a regular flow of the streams is of vital importance. The forest is the most effective means of preventing floods and producing a more regular flow of water for irrigation and other useful purposes.

To prevent the mischievous forest fires Congress passed the law approved May 5, 1900, which—

Forbids setting fire to the woods, and

Forbids leaving fires, camp fires and others, without first extinguishing the same.

This law provides a maximum punishment, in—

A fine of $5,000, or imprisonment for two years, or both, if a fire is set maliciously, and

A fine of $1,000, or imprisonment for one year, or both, if fire results from carelessness.

It also provides that the money from such fines be paid to the school fund of the county in which the offense is committed.

DIRECTIONS. Since so many fires start from neglected camp fires the public is requested as follows:

1. Do not build a larger fire than you need.
2. Do not build your fires in dense masses of pine leaves, duff, and other combustible material where the fire is sure to spread.
3. Do not build your fire against large logs, especially large rotten logs, where it requires much more work and time to put the fire out than you are willing to expend, and where you are rarely quite certain that the fire is really and completely extinguished.
4. In windy weather and in dangerous places, dig a fire hole and clear off a place to secure your fire. You will save wood and trouble.
5. Every camp fire should be completely put out before leaving camp.
6. Do not build fires to clear off land and for other similar purposes without informing the nearest ranger or the supervisor, so that he may assist you.

These warning notices are posted for your benefit and the good of every man in and near this forest, and it is hoped, therefore, that everyone will see that they remain intact and useful as long as possible.

BINGER HERMANN,
Commissioner of the General Land Office.

Approved:

E. A. HITCHCOCK,
Secretary of the Interior.
